Faculty and Staff Headcount

A count of full-time and part-time faculty and staff employed by each CU campus and system administration. Data are consistent with those reported to the Integrated Postsecondary Education Data System (IPEDS), U.S. Department of Education, National Center for Education Statistics. Data do not include student or other temporary employees. This data is updated every year during the spring term.

Faculty and Staff Salaries

Database of CU employee salaries is updated annually. The information does not include temporary workers, student employees or part-time retirees and reflects a single point in time during the fall term. The total number of rows should not be interpreted as an employee count. An employee with multiple appointments will be included for each appointment and is uniquely identified by ID.

The database can be filtered by campus and school/college and sorted by ID, department, job family, job title, campus and salary level.

Sustainability Report

CU has a longstanding commitment to fostering sustainability systemwide as well as leading the state in such efforts. More than a decade ago, the CU Board of Regents passed a Sustainability Resolution directing the university president and chancellors to incorporate Leadership in Energy and Environmental Design (LEED) standards in construction projects wherever possible; develop comprehensive plans to reduce greenhouse gas emissions; and incorporate the mandates of the Governor's Climate Action Plan into each campus' efforts to attain climate neutrality. Cost of Attendance

Total cost of attendance includes tuition and fees, housing, books, transportation and other expenses. Tuition and fee rates are approved by the Board of Regents each spring. The following tables present the full-time cost of attendance at each CU campus by degree level,

residency and school or college. This data is updated every year during the summer.

Affordability & Student Financial Aid

Even in times of uncertainty, a college education continues to be an investment worth making. On average, people with bachelor's degrees earn \$1.5 million dollars more over their working lives, experience lower unemployment and are healthier than those who do not graduate from college. Visit the following web page that outlines CU's commitment to affordability, including how we keep tuition in check, continue to fund student aid, reduce out-of-pocket costs, and other factors that affect your investment in your future.
